

# How to create your Parts.Cat.Com account

This video will show you how to create your Parts.Cat.Com account quickly and easily, so you can start enjoying all the benefits of Cat online shopping:

#### • Real-time Info

Access pricing and availability for faster parts ordering and delivery. Verify pricing and confirm delivery times.

• Find parts fast

Don't know a part number? No problem! Our SIS parts book makes it easy to find parts fast – by serial # or name.

#### Convenience at a click

Frequent order lists and customizable user preferences help you save time - and saved fleet information means you never have to search for your serial number.

#### Order tracking

Online order maintenance lets you track and manage orders. Review order history, invoices, set Preventative maintenance checklists and check Reman core status.

#### Core tracking

Identify outstanding core credits for remanufactured parts.

Let's begin!

## Sign in or Register

The first step in creating an account is to click on the Sign In or register link.

If you already have a login you use on another Caterpillar application such as my.cat.com, or SIS 2.0, use your existing username and password to sign in to Parts.cat.com.

If not, you'll need to create an account.

## **Select Store**

A window for branch selection will pop up and you'll be asked to enter a **location** to find the closest Toromont Cat branch.

The **Select Store** window identifies the closest dealer stores based on the given location. You can use these icons to select from a list, or from a map, or further refine the results. Click the down arrow for additional details including store hours and directions.

Indicate the store you want to purchase from and click the **Select Store** button.
